Conference Coordinator	Dr Bhawanjot	9988370067
Marketing Head	Anjali Singh	7814905419

## *"Safe Care saves money"*

### **Introduction**

*Patient safety has become a critical issue globally due to the recognition of high incidence of errors in healthcare. The greatest challenge is to fill the gap between what we know and what is actually done. Further, complications are also due to the prevailing myths and perceptions about healthcare while most of these errors are unintentional.*

*This Conference aims to provide answers to the important questions that arise with respect to patient safety and to inform, support and influence the health sector and the people in general.*

### **Objectives**

- ✓ To answer: what, why and how of patient safety?
- ✓ To address Patient Safety as a patient centric issue.
- ✓ Discuss the reasons for errors and solutions -- human sector
  - system complexity
  - communication
- ✓ Making patients and their carer as partners (with videos)
- ✓ To discuss on new technologies and their contribution towards patient safety.
- ✓ To learn than responding to error
- ✓ To bridge the no-do gap

*"When you look back after someone has been killed in a patient safety incident, you can often see that all the ingredients were in place for a disaster to happen. It was almost as if the person who died was a 'dead patient walking' as they stepped through the entrance of the hospital."*

*(Sir Liam Donaldson, speaking at The David Skeggs Lecture for the Royal College of Radiologists at Langham Hotel, London on 18 November 2005)*

***"Learn the dimensions of patient safety from the experts"***

## Invited Speakers
