

AMPLIFY LEADERSHIP SERIES

Empowering Educators for a Changing World

Universities stand at a defining moment. AI is reshaping classrooms, students expect relevance, and institutions must lead change, not scramble to catch up.

At **Chitkara University**, faculty are more than teachers. They are mentors, researchers, and builders of institutional culture. The Amplify Leadership Series is a three-day immersive program designed to sharpen leadership instincts, deepen pedagogical practice, and strengthen the bonds that make academic teams exceptional. It also makes room for the kind of shared experiences, a campus chase, a heritage walk, a gala evening, where lasting professional connections are forged.

**This is not a routine development program.
It is a platform to reflect, reimagine, and rise.**

THREE PILLARS

01

Lead

Rethink academic leadership, adaptive, contemporary, technology-informed, and built for a rapidly shifting educational landscape.

02

Communicate

Build influence through clarity and empathy, across classrooms, departments, and disciplines.

03

Empower

Equip students with life skills and future career readiness by aligning what you teach with what the world demands.
