Objective:

1. This session is fit as IIC Event as it provided insight to students related to FinTech which is all the rage nowadays.
2. FinTech in 2023 and Beyond, FinTech leading to New Financial Era, FinTech in the Financial Industry.
3. FinTech in 2023 and beyond another objective is to motivate students from all domains for their decision related to under graduate course on FinTech.
4. This session objective is to bridge the gap between the industry and academia.

Description:

FinTech in 2023 & Beyond: Paving the way to a New Financial Era was held on 11th August, 2023. Mr. Pradeep Pandey (Director–Grant Thornton Bharat LLP), Mr. Kapil Arora (Director–Grant Thornton Bharat LLP), and Mr. Rohit Gupta (Associate Director–Grant Thornton Bharat LLP) were speakers for BBA Fintech who shed light on the revolution brought into the Financial Industry by Fintech. The session unfolded the indispensable and evolving landscape of FinTech and how it has swept away the traditional cash-based transactions and paid its way to a new Financial Era where financial services are faster, more accessible, democratized, customer friendly, and whatnot. Further, As we move through 2023, the world of FinTech continues to evolve at an unprecedented pace, breaking down barriers to financial access and reshaping how consumers and businesses interact with money. With technologies like blockchain, AI, and open banking driving innovation, FinTech is not just enhancing traditional financial services but is creating entirely new ways to manage, invest, and transfer wealth. In 2023 and beyond, the focus will shift towards empowering individuals and organizations through digital-first solutions, ensuring greater financial inclusion and fostering a more transparent, secure, and efficient global economy. The session was full of words of wisdom and enabled all the students to know about many unknown perspectives of FinTech and gave a fillip to their curiosity to have more sessions like this.

Outcomes:

1. The session ensured students that they have chosen a very right field for them which is not only gaining grounds at present but has a very bright future as well, owing to ever-advancing technology and customer preferences.
2. Students were enlightened about the burgeoning scope of FinTech and how being a student of the same will be a rewarding experience for them and their careers down the line.
3. To cultivate leadership skills and a deep understanding of fintech business models, aiming to either lead innovative teams in established fintech companies or explore opportunities in launching my own fintech startup.
4. To engage with professionals, mentors, and innovators in the fintech space, learning from their experiences and building a network that supports my growth in the industry and contributes to cross-functional collaborations.
