

Event Details	
Event Type	Faculty Development Program
Topic	Faculty Development Program on Innovation Teaching Pedagogies through Simulations
Date	2024-01-08 to 2024-01-13
Mode	Offline
Organizer Name	Chitkara Business School, Chitkara University, Punjab
No. of Participants	47
SDG No	SDG 4: Quality Education, SDG 9: Industry, Innovation and Infrastructure, SDG 10: Reduced Inequalities

Objective:

1. To introduce faculty members to innovative pedagogical approaches and how to apply them using simulations.
2. To equip participants with the necessary tools and techniques to incorporate simulations into their teaching, improving student engagement and learning outcomes.
3. To foster collaboration among faculty members so that they could share their teaching experiences and innovations, enhancing overall academic excellence.
4. To familiarize faculty members in using simulation-based methodologies in both teaching and research, preparing them to adopt these practices within their departments.

Description:

Chitkara Business School, as part of its continuous commitment to enhancing the teaching skills and pedagogical strategies of its faculty members, organized a Faculty Development Program (FDP) focused on "Innovation Teaching Pedagogies through Simulations." This program, held from 8th and 13th January 2024, from 9:30 am to 12:30 pm at LH 406, Rockefeller Block, Chitkara Business School, was designed to equip faculty with the latest teaching methodologies and simulation tools that enhance the learning experience. The FDP aimed to introduce innovative teaching practices, especially using simulation-based pedagogy, which bridges the gap between theoretical learning and real-world applications. The program was led by Mr. Aakash Goel, a renowned education consultant and pedagogy expert with extensive experience in integrating simulations into academic curriculums from LearnBiz Simulations LLP. It brought together a diverse group of faculty members to explore, understand, and experience the transformative power of simulations in teaching business concepts. The Faculty Development Program on Innovation Teaching Pedagogies through Simulations proved to be an enriching experience for all participants. By equipping faculty with cutting-edge tools and methods, it empowered them to better engage students and improve learning outcomes. The hands-on experience with simulations ensured that faculty left with a clear understanding of how to incorporate these technologies into their teaching. Chitkara Business School acknowledges and thanks Mr. Aakash Goel for expertise and guidance throughout the program, as well as all the participants for their active engagement. This FDP marks a significant step toward advancing academic excellence at Chitkara Business School through innovative teaching practices.

Outcomes:

1. Faculty members developed an advanced understanding of innovative pedagogical approaches and how to apply them using simulations.
2. Faculty members gained confidence on using tools and techniques to incorporate simulations into their teaching, improving student engagement and learning outcomes.
3. The event also served as a networking platform, encouraging collaboration with the industry.
4. The faculty get to know the challenges in the area of teaching pedagogies and their possible solution.
