About the Activity

The session was focused towards the Critical Thinking as a part of value added course-21st Century Micro Learning Program(MLP). Dr.Shamik emphasized the interplay of cognitive processes in the decision making and the communication. He discussed the relevance of good argument and how arguments work and how learners can learn the skills to persuade people and accomplish things. He also stressed on the need to encourage people and build trust and communication. Various cognitive biases and fallacies were also discussed by Dr.Shamik.

Activity objectives and Outcome achieved

S.No	Objectives	Outcomes
1.	To understand the Critical thinking skills	Students gained the understanding of critical thinking
2.	To observe the importance of right arguments in decision making	Students learnt how to use arguments in business decision making
