Name of the Moderator	Dr. Anurodh Khanuja	Time	11:00 am – 4:00 pm
Name of the Resource Person	Mr. Rajeev Sharma	Mode	Offline
Nature of the activity	Industrial Visit	Program & Batch	MBA Logistics and Supply chain
Number of students participated	55	Academic Session	2023-2025

About the Activity: Chitkara Business School’s Department of Supply Chain Management and General Management organized an Industrial visit for MBA Logistics & Supply Chain Management students. On September 29, 2023, the students had the privilege of visiting Hind Terminals, an Inland container depot renowned for its role as a custodian in handling warehousing, transportation, rail road services, and possessing its dedicated freight corridor.

During this insightful visit: The industry officials provided valuable insights into the intricate legal process of applying for a custodian license from the Central Board of Indirect Taxes and Customs (CBIC).- Students gained a deep understanding of the licensing process and the pivotal role played by the Ministry of Commerce in facilitating license acquisition. This visit was a distinctive learning opportunity, providing students with practical exposure to the complexities of logistics and supply chain management, specifically in the context of custodial services. Understanding the regulatory and legal aspects of acquiring licenses in this field is crucial, and this visit offered a hands-on perspective. The visit to Hind Terminals proved to be a highly enriching experience for the MBA Logistics & Supply Chain Management students. It effectively bridged the gap between theoretical knowledge and practical implementation within the logistics and supply chain management domain. Such experiences are instrumental in preparing students for real-world challenges and opportunities in this field.

Aligned Activity Outcomes with Objectives

Activity Objectives	Activity Outcomes
Practical Exposure:* These activities aim to provide students with real-world exposure to the subjects they study. By visiting relevant industry sites and interacting with professionals, students gain practical insights, enhancing their understanding beyond classroom theory.	Practical exposure gained through these activities equips students with industry-relevant skills and knowledge. This enhances their employability and makes them more attractive to potential employers, as they enter the job market with a deeper understanding of real-world applications in their field of study.
Bridge Theory and Practice:* Such activities serve to bridge the gap between theoretical knowledge and practical application. They help students connect what they learn in the classroom to how it is applied in professional settings, better preparing them for their future careers.	Interactions during these activities often require students to think critically and solve practical problems on the spot. This nurtures their problem-solving skills and encourages them to approach challenges with creativity and adaptability, skills highly valued in any profession.

GLIMPSES OF THE EVENT

“ Faculty and student interaction with Mr. Rajeev Sharma during the Industrial Visit”
