Name of the Moderator	Dr. Sandhir Sharma	**Time**	9.00 am -12 noon
Name of the Resource Person	Dr. Natwar Kadel	**Mode**	Offline
Nature of the activity	Career Counselling Session	**Program & Batch**	MBA, Batch 2022
Number of students participated	60	**Academic Session**	2022-23

About the Activity

The speaker oriented the students about the "Role of Data Scientist in HR. They were guided about how a data science expert on the HR team may offer the company insights for managing personnel well so that corporate objectives are accomplished swiftly and effectively. By obtaining and analyzing data related to training programs, data scientists allow the HR to ensure whether the employees are taking advantage of the professional development opportunities being offered to them or if they are applying the knowledge gathered by them during the training courses. With the use of real-world examples, the seminar offered insights into the subject.

Aligned Activity Outcomes with Objectives

Activity Objectives	Activity Outcomes
To make students well-verse with theoretical foundations of the concept and envisioned them with the implementation of the practical aspects in the industry.	Students learned about the nitty-gritties of the practical world and broaden the horizon about importance of data scientist in the field of human resource.
