About the Activity

The session was conducted by resource person Dr. Cynthia M.Montaudon Tomas , Professor & Business Consultant, Business School , UPAEP University, Mexico. The resource person focused on “Hybrid Leadership” and insights about the changing trends in Leadership. The students learnt about new concepts of leadership, culture & leadership, leadership geometry, traits of effective leader & followers, global leadership. The session included many examples as of Jacinda Ardern, Prime Minister of New Zealand, Angela Merkel for creating better understanding among the students. She recommended few book like “Leading the unleadable “etc. to the students which they must read. As a part of deliverable, the students were engaged in different tasks & activities. Overall it was a very interesting and interactive session and the efforts of resource person were sincerely & highly appreciated by the students. Dr. Cynthia worked dedicatedly for making this entire course more effective for the students. The students had a great learning experience.

Aligned Activity Outcomes with Objectives

Activity Objectives	Activity Outcomes
1. To provide the students insights about Paradigm of leadership.	The students were made aware about the different aspects of leadership that are in practice.
