About the Activity

In Global Business Virtual Masterclass 2021, Dr. Astadi introduced the concept of ethics, human thinking process, the purpose of ethics and different kind of ethics to the undergraduate students of management. He also talked about norms, values, morality, rules & the concept of goodness. He shared his cross-cultural learnings to the participants stating the ethical values in different societies and cultural system. Furthermore, he discussed about the impact of ethics on business and economy at large. He also encouraged all the participants to share their perspectives on their ethics, and how they perceive them. The cross-cultural exchange amongst students not only enhances the spectrum of knowledge of students but also increases acceptability and adaptability of different cultures across the globe. Dr. Astadi also shared his understanding of different types of values along with significance of employee empowerment.
