About the Activity

MBA HR Batch of 2022 was honored to have Prof Beatriz Lopez conducted HR sessions during the Global Week held in Chitkara University. Her Cohort size was of 30 Students. The students had deep insights into contemporary HR practices. The main objective was to give the students an overview on International HR practices. The faculty shared hand on experience of their respective countries /organizations so that the students could co relate with HR practices in India. The sessions aim to develop an in-depth understanding of human resource management. The intricacies of managing the human resources within the business context are developed in this module. It examines processes, practices, and procedures associated with HRM management and administration that an employer/manager needs to be familiar with and analyses the current best practice in the HR function.

Aligned Activity Outcomes with Objectives
