Nature of the activity	Value Added Course	Program & Batch	BBA (Prof.), Batch 2020 & 2021
Number of students participated	50	Academic Session	July to December 2022

About the Activity

During the Global Business Week 2022 Dr. Guillemine TAUPIAC NOUVEL was introduced to the students by Dr. Balpreet Singh. Dr. Guillemine TAUPIAC NOUVEL is a Professor of law in France. She is the Vice-Dean of the College of European and International Studies, University Pau and Pays de l'Adour (UPPA), France. Dr. Guillemine TAUPIAC NOUVEL interacted with the second and third-year students of B.B.A (DM and LSCM) during Global Week 2022. She taught International Trade Laws to the students. She discussed with students that legal rules represent a large part of the business environment as it is the mandatory framework in which commercial activities can be undertaken. She further explained that an activity is international when it generates a flow across borders, whether this flow concerns products, services, personnel or financial instruments. When an operation concerns the economy of several countries, it is "international". Thus, international legal rules in commerce are the laws and regulations applicable to transnational business and in a wider sense to inter-States trade. Furthermore, she discussed a comprehensive terminology in International Trade Law. Overall the classes were held in an interactive format as far as the topics allowed it. An assignment, divided into a theoretical part and a practical part, was organized on the last day of Global Week 2022.

Aligned Activity Outcomes with Objectives

Activity Objectives	Activity Outcomes
1. To Understand the need of International Trade Laws	The students became aware of the need of International Trade Laws
2. To Understand the fundamental rules and main issues	The students became aware of the fundamental rules and main issues
3. To Understand the comprehensive terminology in International Trade Law	The students became aware of the comprehensive terminology in International Trade Law
