About the Activity

The VAC course named “Understanding India” is an amazing experience to understand our country with a rich heritage and culture. This course brings an insight into enriched and diverse cultures thereby focusing upon the Bhakti and Tantric movement in North India during 13th to 15th century, the challenges to the Brahmin community. A detailed understanding of Buddhism, Jainism and various types of Vedas are covered during the VAC classes. Another major area of focus is about the perspectives of religions and political viewpoints. The importance of spirituality in context to the Indian culture was also discussed during the sessions.
