About the Activity (300 words)

Chitkara Business School had organised Comtech, a mega event held from 10th to 14th April 2023 for the students of Bachelors of Commerce (Hons.) and Bachelor of business administration (FinTech) focused on the future of work, skilling, and mobility. The event kicked off with an energetic inauguration on Day 01 followed by featured invaluable insights from distinguished and seasoned speakers. The 5 Days action packed Event started on a high note with immense knowledge sharing by 7 eminent speakers on extremely relevant issues like- forensic accounting, fraud detection, and its prevention measures, the importance of investments, the art of wealth creation, the power of compounding, the rule of 72 and risk capacity, and risk preference. and in the process inspiring students to be creative and to think outside the box. The experts also talked about evolution of artificial intelligence in the banking industry, how artificial intelligence is playing its part in changing modern trends in the banking sector, a dive into the practical world of derivatives, financial instruments, financial markets, forex markets, and working of mutual funds. All these sessions were interactive and provided opportunities for the participants to ask questions and clarify their doubts. The feedback from the distinguished speakers was also positive, with many of them appreciated the enthusiasm and curiosity of the participants.

Approx 267 enthusiasts of CBS had an immense opportunity to participate in experiential learning competitions and fun learning activities. Aim to foster innovation and entrepreneurship among the students with hands on experience through competitions was achieved to a major extend. Gap between theory and practice was bridged by bringing industry and academia leaders on the same platform.

Furthermore, the students actively participated in scholastic and fun-filled educational activities like financial literacy awareness in 5 adopted villages, enacting and understanding scams and testing business knowledge in the game of Fortune wheel. The participants were divided into groups and assigned to different competitions, where they worked collaboratively to complete the tasks assigned to them. This event was in alignment with IIC which aims to promote innovative thinking among young students and enrich their leadership qualities. COMTECH event was successful in achieving its objectives of skilling and employability for the future of work by providing the participants with valuable knowledge and practical skills, as well as networking opportunities with industry experts and peers.
