What is Model United Nations?

Model United Nations (MUN) is an academic simulation of United Nations Conference, It's also a civic education activity organised for young people. During the activity, young people act as diplomatic delegates of different countries or other political realities. As delegates, they participate in discussion on international hot topics and solve problems with others. During the process of problem-solving, they must comply with the rules of conference while stating their position. Besides, they will also strive for the best interests of their assigned country in the discussion. During this process, they communicate, debate, consult and lobby with other delegates. They also propose solutions by working together in writing a resolution and finally, everyone vote and select the best solution for this hot topic.

In MUN, young people have the opportunity to become familiar with the operation, the international diplomatic communication skills as well as the contemporary hot topic of the United Nations by simulating the experience of the real United Nations scene. Besides, they will also exchange ideas by discussing with other students and try to solve the trending issue in their own way.

The Unique ILMUNC Experience

Personal Report: Gather, learn, and grow. During the conference, delegates enhance communication, knowledge, and logical thinking. We track their development and provide each participant with a personalised skills report, offering valuable insights into their progress by the end of the event.

Elevated Discussion at ILMUNC: We aim to offer unparalleled debate experiences that deepen delegates' understanding of international affairs while fostering essential skills-like critical thinking, public speaking, and diplomacy-that extend far beyond the committee room and into their future academic and professional lives.

MUN was truly a rollercoaster journey for me, filled with exhilarating debates, unexpected crises, and unforgettable memories.

MUN Training: Pre-conference training and sessions. With the support of resources from the United Nations, and series of pre-training guidance, even if you have no experience in MUN, you can still be well-prepared and stand out in the conference.

Pre-Conference Socialising: Debate beyond borders. Our online platform connects delegates before the conference, offering opportunities to exchange ideas and build connections. Pre-conference training sessions and activities help delegates break the ice, collaborate, and learn from one another ahead of the main event.

High Academic Level: The ILMUNC organised by University of Pennsylvania (Ivy League) is famous for its high quality academic and innovation. Organised by the first-class college students, which is one of the core competitiveness, and makes this conference experience a unique way.
