## FROM THE DESK OF DEAN

**Dr. Thakur Gurjeet Singh**  
Dean, CCP

These are times of great pain, but also of great possibility. As dean of Chitkara College of Pharmacy, I would like to express my gratitude to the CCP family for their outstanding achievements from "bench to bedside," which reflect our cooperative alliances. It's very easy, and it's certainly understandable, to feel exhausted and defeated by the challenges among us, but everyone of us are still engaged in research and teaching that contributes directly to finding solutions for our world on fire. I want to congratulate everyone associated with CCP for making this session successful through their commitment and hard work, as well as by their camaraderie and professionalism, which helped to uphold the culture and legacy of CCP and helped the team to achieve NIRF top 20 ranking.

I will always be thankful for the efforts that the faculty and staff of our college have done for Chitkara College of Pharmacy. Also, I am optimistically excited about the future prospects of what we will achieve together in the upcoming years.

## FROM THE STUDENT'S DESK

Being members of CCP is an incredible honour and source of pride.

Every day we've spent at CCP has always been special. It provides us with one-of-a-kind experiences. We appreciate the help and guidance we received from our parents and teachers along the way. Our instructors and staff never fail to inspire us, and their assistance is invaluable. We are grateful to the college for believing in us and giving us the opportunity to demonstrate our abilities. The college has changed our personalities, and our future goals have become clearer. We are grateful to the college for providing guidance and inspiration to help us achieve our objectives.

That day is not far away when people will remember us with the name of CCP.

The International Conference on “Innovation and Advances in Drug Development and Clinical Research (IADDCR-2023)” was held on April 24–25, 2023, at Chitkara College of Pharmacy, Chitkara University, Punjab. The conference brought together researchers, academics, industry experts, and students to discuss the latest developments in drug development and clinical research. The conference began with an opening ceremony, followed by a keynote address by Dr. Archana Mantri, Vice Chancellor, Chitkara University, Punjab. Dr. Mantri addressed the guests & achievements of the students and faculties of Chitkara University related to the innovation & collaboration in drug development. Guest of Eminence for the conference Major General Dr. Dilawar Singh addressed the audience and focused on the use of AI to pace-up the things to meet the ongoing demand of the pharmaceuticals. Later, Chief Guest of the Conference Dr. Montu Kumar Patel, Chairman, Pharmacy Council of India has addressed the ongoing key regulatory issues related to updation of curriculum and introduction of job portals for the pharmaceutical professionals. The keynote international speakers of the conference are Prof. (Dr.) Kylie Williams, Prof. (Dr.) Brian Oliver, Prof. (Dr.) Kamal Dua, and Prof. (Dr.) Pornsak Sriamornsak. While keynote speakers from India are Prof. (Dr.) Harish Dureja, Prof. (Dr.) Indu Pal Kaur, Prof. (Dr.) Sanjay Jachak, Prof. (Dr.) Sanyog Jain, Prof. (Dr.) Geeta Aggarwal, etc.

The first day of the conference featured several sessions on drug discovery, pharmacology, and toxicology. Speakers presented their research on a wide range of topics, including the identification of novel drug targets, the design of new therapeutic agents, and the development of innovative drug delivery systems. The sessions included discussions on the latest advances in pharmacology & toxicology, such as the use of computational methods for design and the evaluation of drug safety and efficacy.

(QbD) from April 20-21, 2023 held at  
Panjab University, Chandigarh**

The National Symposium cum Workshop on "Contemporary Trends, Tools, and Techniques in Pharma Quality by Design (QbD)" was a comprehensive event focused on exploring the latest advancements and methodologies in the field of Pharma Quality by Design. The workshop provided a platform for researchers, industry professionals, and academics to come together and exchange knowledge and insights into this rapidly evolving discipline. The symposium portion of the event featured renowned experts and thought leaders who presented their research findings, case studies, and practical applications related to QbD in the pharmaceutical industry. Participants gained valuable insights into the principles and concepts of QbD, including risk assessment, critical quality attributes, and process optimization. They also explored the regulatory aspects and guidelines associated with implementing QbD practices in pharmaceutical manufacturing. The workshop component of the event focused on hands-on training and practical demonstrations of the JMP software used in QbD. Participants had the opportunity to learn about cutting-edge methodologies such as design of experiments (DOE), Risk Assessment analysis etc. They were provided with real-world examples and case studies to better understand how these tools can be effectively applied to improve product quality and process efficiency..

The workshop also served as a networking platform, allowing participants to connect with peers, experts, and industry representatives. Approximately over 200 participants from all over the country had participated actively in the symposium cum workshop. Attendees had the opportunity to establish professional connections, explore potential research collaborations, and exchange best practices and insights.

## **Pharma EDX 2023 , A 5 days FDP on Advancing Faculty Excellence in Pharmaceutical Sciences from 6th June -10th June 2023**

The Faculty Development Program (FDP) on Advancing Faculty Excellence in Pharmaceutical Sciences was a comprehensive and engaging initiative aimed at enhancing the skills, knowledge, and effectiveness of faculty members in the field of pharmaceutical sciences. The program, designed to meet the evolving needs of educators in this specialized area, provided participants with valuable resources, insights, and networking opportunities. The FDP encompassed a wide range of topics relevant to pharmaceutical sciences education, including innovative teaching methodologies, curriculum development, research advancements, and professional development strategies. Through a combination of workshops, seminars, panel discussions, and interactive sessions, participants had the opportunity to learn from experienced educators and industry professionals.

Additionally, the FDP emphasized the significance of fostering a collaborative and inclusive learning environment. Faculty members were encouraged to develop strategies for promoting diversity, equity, and inclusion in their classrooms and research settings.

Overall, the FDP on Advancing Faculty Excellence in Pharmaceutical Sciences provided a platform for faculty members to enhance their teaching and research skills, stay updated with the latest advancements in the field, and foster a supportive community of educators.
