We take great pride in looking after our students. We have zero tolerance to ragging.

5 STARS

All our institutions and academic programs are recognised and approved by UGC and various regulators such as NAAC | AICTE COA | NCHMCT | INC.

City Beautiful Chandigarh

A MILLION PEOPLE; INFINITE POSSIBILITIES

Chandigarh is undergoing rapid urbanisation and the transformation has been holistic and all inclusive. Over the years, the city has made remarkable progress in terms of physical infrastructure and business environment and has emerged as an economic growth centre with one of the highest per capita incomes in India.

Ample opportunities are available to work and grow in the IT, BPO and pharmaceutical sectors in the region. It has proven to be a magnet for potential employers and employees.

The open hand is the official emblem of Chandigarh; it symbolises the city's philosophy of being "open to give" and "open to receive". Chandigarh has seen the growth of some major start-ups over the last few years. The city has kept pace with the ever-evolving education sector to become the one-stop destination for all education needs. This makes Chandigarh ideal for students who wish to enjoy the blend of rich culture of city life and the peaceful environment that this city offers.

Chandigarh is easily accessible from Delhi, Haryana, Punjab, Himachal Pradesh and other metropolitan cities through various modes of transportation, viz. buses, trains and direct flights, both national and international, from Dubai, Singapore, Sharjah, etc.

Chitkara Business School has been consistently ranked as one of the best in the country by:

EXPERIENCE APPLIED BUSINESS EDUCATION WITH THE BEST OF INDUSTRY PARTNERS

Immerse yourself in a dynamic learning journey at Chitkara Business School, where we offer a unique blend of academic excellence and real-world expertise. Our commitment to applied business education is further amplified by our esteemed industry and knowledge partners, who bring invaluable insights, mentorship, and opportunities to our students.

OUR UNDERGRADUATE PROGRAMS WILL PREPARE YOU FOR EVERY KIND OF CAREER CHALLENGE

Option to get an Honours degree in BBA and B.Com

Our 3-Year BBA and B.Com program offers the opportunity to extend your studies by one year and graduate with an Honours degree. In the fourth year, we offer our students the following three distinct options to choose from, each designed to elevate their academic and professional capabilities: Advanced Majors, Research and Internship.

Our Faculty

The faculty at Chitkara Business School includes experts from core academics with experience in both academics and industry. You will get to learn from academic scholars with doctorate degrees, experts from industry and authors of important works in the fields of Business, Economics & Research, further helping you develop a fresh approach in the field of Marketing, Finance and Human Resource Management.

We also invite renowned professionals from various domains, including Banking, Finance, Healthcare, Telecommunication, Financial Markets, Infrastructure, Public Services Departments, Iron & Steel, Airlines & Tourism, Research Agencies, Manufacturing, Textiles, Information Technology, etc., to share their experiences with our students from time to time. You will experience Chitkara Business School's rigorous, comprehensive curriculum in which you will master the essential skills of Business Management and Leadership. After fulfilling the requirements of the core curriculum, you have the flexibility to tailor your education to meet your specific goals and interests through a wide variety of elective offerings and study abroad opportunities.

Business Communication

Effective communication and presentation play a key role in our teaching methodology. Students are divided into different groups and are made to present street plays. This exercise is initiated to improve their communication, teamwork and linguistic abilities.

The Chitkara Business Simulation

Groups of students apply the skills acquired in finance and other courses to develop and implement an actual trading strategy. Workshops on Business Simulation and the use of research tools such as SPSS are regular features to support the developing minds of students.

Chitkara Mandi

Students set up their own shops, contact NGOs and sell their products to actual customers in the marketplace to sensitise themselves to business situations. We call it 'Apni Mandi'.

Summer Internships

Our Undergraduate / Graduate students go for a mandatory four-weeks summer internship in the month of June. The first year, you will intern with an NGO in your area to understand societal issues and grassroots problems. In the second year, the internship will be with a micro or small enterprise to understand the basics of setting up and running a business venture.

PREPARE FOR SUCCESS

In year one, we're already talking about your future career and that dialogue continues well beyond graduation and your first job. We help you show the world what a Chitkara Business School graduate is smart, versatile, used to taking on challenges - and ready to drive change.

When you're just starting University, it can be a bit overwhelming to think about graduating and launching your career. Our Career Advancement Services team is here to support you throughout your time at Chitkara University. We help you craft a job search strategy built around learning objectives and practical experiences that you'll lean on throughout your professional career.

At Chitkara University, we divide your career journey model into three phases:

- **Your 1st Year is the Discover phase**, as you map out your academic path and become part of the Chitkara community, you'll want to complete our career leader assessment to determine your skills, strengths and values. Your career services coach will help you interpret the results and consider what sectors and roles might be right for you.
- **Next is the Develop phase**, in which you build a toolkit for promoting your strengths and experiences. We offer workshops on writing an effective résumé, cover letter and LinkedIn profile, as well as programs reinforcing the value of networking and mentorship and exploring potential career paths in specific industries.
- In your final semesters, **you shift to the Action phase**, refining your job search strategy as you interact with employers at recruitment and networking events. And even after you graduate and start your first job, your career journey continues. The process you learn to navigate at Chitkara University is one you'll turn to, many times over as your career advances and evolves.

Alumni Mentorship and Networking

Through our mentorship program, you're paired with an appropriate Chitkara Business School alumni based on your strengths, interests and long-term aims. Your mentor guides you in exploring various industries and roles, offering insights grounded in experience. And as you gain new perspectives on the dynamics of business and your potential career options, you build a valuable relationship for the future.

CHITKARA ALUMNI NETWORK

OUR LIFELONG PARTNERS IN GROWTH

Our alumni don't just carry the Chitkara University name. They amplify it. From leading multinational corporations to driving start-ups and social enterprises, they are transforming industries and creating pathways for the next generation across the globe.

With a network spanning 54 countries, their success reflects the strength of our programs, and their ongoing engagement creates a dynamic ecosystem where current students learn, connect, and grow alongside accomplished professionals.

Many of our alumni hold leadership roles in Fortune 500 companies, have founded successful ventures, or earned global recognition for their contributions to business and society. Their achievements validate the quality of Chitkara University education and inspire each new batch of students to aim higher.

Mentorship and Guidance

Alumni share their professional journeys and hard-earned insights, helping students navigate industry expectations, career choices, and the challenges of the real world.

Recruitment and Internships

Strong alumni connections open doors to organisations across sectors and geographies, creating valuable placement and internship opportunities that transform careers.

Industry Engagement

Through guest talks, workshops, and interactive sessions, alumni bring current industry trends and practices back to campus, ensuring our curriculum stays aligned with real-world demands.

Networking Opportunities

A thriving alumni base spanning multiple countries and industries provides students with access to a powerful professional network—one that extends far beyond graduation day.

Collaborations and Innovation

Alumni actively contribute to research initiatives, case development, and entrepreneurial ventures, encouraging a culture of innovation and practical learning within the school.

Giving Back

Several alumni actively give back through scholarships, endowments, sponsorships, and institutional support, ensuring that opportunities expand for the next generation of business leaders.

At Chitkara University, graduation is not the end but the beginning of a lifelong partnership that grows stronger with every passing year. Our alumni remain connected to the school, to each other, and to the evolving needs of industry, creating a vibrant community where learning never stops and success is shared. When you join Chitkara Business School, you don't just earn a degree, you gain a family of achievers who remain invested in your success, today and throughout your career.

Global Pathways to Success with Chitkara University & Arizona State University

Chitkara University, in academic partnership with Arizona State University (ASU)—ranked #1 in Innovation in the U.S. for 11 consecutive years (U.S. News & World Report, 2016-2026)—offers students an exceptional India-U.S. educational experience, creating pathways to global careers and cross-continental opportunities.

Under this groundbreaking collaboration, Chitkara University offers a strategically designed global pathway program in Business. These distinctive 2+2 pathway programs allow students to complete the first two years at Chitkara University, studying ASU's globally recognised curriculum under expert mentorship while remaining in India. After two years, eligible students seamlessly transfer (subject to conditions) to ASU in the U.S. to complete their degree.

By starting at Chitkara University, students pay only one-third of international tuition fees and save substantially on boarding, lodging, and living costs, making world-class education far more accessible. Graduates also benefit from STEM Optional Practical Training (OPT), enabling them to work in the U.S. for up to three years post-graduation, significantly boosting their global career prospects.

Through this 2+2 pathway program, Chitkara University and ASU empower students to earn a globally recognised degree, experience an advanced academic ecosystem, and build impactful careers worldwide.

BBA in Artificial Intelligence (AI) in Business with an option to specialise in Business Data Analytics

In a world where Artificial Intelligence (AI) is transforming businesses across all sectors and data is the new currency, this meticulously crafted program integrates the principles of business administration with the technical prowess of AI and Data Analytics. Students enrolled in the BBA in AI in Business program have the option to specialise in Business Data Analytics, enabling them to gain advanced expertise in data-driven business strategy and decision-making.

The industry-aligned curriculum prepares students to leverage AI and data insights to create innovative solutions and drive competitive advantage. This distinctive program bridges business strategy with cutting-edge AI technologies, empowering students to implement AI-powered solutions in corporate environments. After two years at Chitkara University, students transfer to ASU's Bachelor of Science (BS) in Artificial Intelligence in Business, gaining global exposure in AI applications, automation, and digital transformation.

Harness ASU's global reputation as the No. 1 school for innovation, global impact and sustainability

Arizona State University, ranked the No. 1 "Most Innovative School" in the nation by U.S. News & World Report for eleven years in succession, has forged the model for a New American University. Year after year, ASU ranks at or near the top of the list in areas that matter.

ASU is a comprehensive public research institution, measured not by whom it excludes, but by whom it includes and how they succeed; advancing research and discovery of public value; and assuming fundamental responsibility for the economic, social, cultural and overall health of the communities it serves.

#1 public university in the U.S. chosen by international students

ASU ahead of the UCLA, Purdue and the University of Texas

-Institute of International Education, 2021-24

A commitment to reducing our carbon footprint

ASU is one of just two universities in the U.S. (and only 43 worldwide) to have achieved net zero greenhouse gas emissions. The net zero goal was reached six years ahead of our target.

Top 10 in the World for U.S. patents

ASU along with MIT, Purdue and Stanford
- U.S. National Academy of Inventors, 2024

ASU students win \$1M XPRIZE

A team of students beat out nearly 1,000 worldwide entries to be named the winner of the XPRIZE competition for their design of a functional, comfortable mask to prevent the spread of COVID-19.

ASU student innovators win international competition

After beating out 182 teams, two first-year ASU students represented the U.S. on the world stage against 44 other countries, where they won for their idea for a revolutionary note-taking tool.

A leader in the semiconductor revolution

Students are becoming prepared for the critical semiconductor industry, while ASU is helping to add more jobs and strengthen the economy by providing research, education, innovation and talent for the industry.

Untangling the origins of Alzheimer's

An ASU professor is making advancements in Alzheimer's disease research with new technology that looks at its origins on the molecular level.

#1 in the U.S. for innovation

ASU ahead of MIT and Stanford

- U.S. News & World Report, 11 years, 2016-2026

#1 in the U.S. and top 10 in the world for global impact in research, outreach and stewardship

- Times Higher Education, 2025

#1 in the U.S. and #2 in the world for sustainable practices

ASU ahead of Stanford and UC Berkeley

**- Association for the advancement of

BACHELOR OF BUSINESS Administration (Business Analytics) in Academic Mentorship with

Today's businesses understand the critical need to stay ahead of industry trends, tools, and technology. As they develop the ability to leverage data for insights into a more profitable future, they seek candidates capable of assessing, interpreting, and evaluating this vast information. A solid education in data analysis equips learners to lead organisations in making informed, data-driven decisions.

The Business Analytics global pathway program at Chitkara University, offered in academic mentorship with George Brown College in Canada, prepares students to transform complex data into actionable insights for effective decision-making. This interdisciplinary program integrates business principles, leadership, liberal sciences, dashboarding technologies, and analytical techniques. By working with various data types, students develop critical thinking, strategic leadership, and management skills, equipping them to deliver impactful organisational solutions.

Start your Bachelor of Business Administration (Business Analytics) degree at Chitkara University in India, studying for two years before opting to continue at George Brown College in Toronto, Canada, for another two years to complete your degree. Your two years of Advance Standing credits from Chitkara University are fully transferable to George Brown College, and you will benefit from academic mentorship from George Brown faculty during your first two years at Chitkara University. Additionally, you will receive a conditional Offer of Acceptance from George Brown College upon joining the program at Chitkara University.

By choosing this pathway, you will save one-third of international tuition fees during your first two years of study in India. After two years, you can seamlessly transfer to George Brown College, based on transfer conditions, and graduate with a 4-year Business Analytics degree from George Brown College.

PROGRAM HIGHLIGHTS

Chitkara University offers a globally recognised Business Analytics degree, guided by George Brown College in Canada. Students receive a Conditional Letter of acceptance into George Brown College's pathway program, allowing a transfer option after two years. The initial two years include co-teaching and mentoring by George Brown College faculty, both online and offline. Upon completing the degree at Chitkara University, all credits seamlessly transfer to George Brown College, aligning with the Honors BBA in Business Analytics Degree's first two years.

Students studying at Chitkara University in the first two years save cost significantly, paying only 1/3rd of the international fee or the equivalent of what a Canadian domestic student pays for a similar program in Canada. This results in a substantial 60% reduction in the international tuition fee component, making the program financially advantageous for aspiring business analytics professionals.

PROGRAM FRAMEWORK AT CHITKARA UNIVERSITY*

(Year 1 & Year 2)

- Applied Business Communication
- Business Calculus and Algebra
- Programming Fundamentals for Analytics
- Computer Applications Involving Analytics
- Statistics I for Analytics
- Data Preparation and Visualisation for Analytics
- Organisational Behaviour
- Advanced Computer Applications Involving Analytics
- Fundamentals of Descriptive, Predictive and Prescriptive Analytics
- Research I
- Statistics II for Analytics
- Social and Digital Analysis
- Work Experience Preparation (28 hours non-credit)
- Business Metrics
- Research II
- Introduction to Financial Accounting
- Business Ethics
- Select One Liberal Studies Elective in each semester

Students who opt for George Brown College's Bachelor of Business Administration in Business Analytics at their Toronto, Canada campus (subject to meeting credit transfer conditions) will take the following courses in the subsequent semesters at George Brown College, Canada campus as part of the 4-year degree from George Brown College in Canada.

INTEGRATED PROGRAM IN MANAGEMENT (IPM)

5-Year Program steeped in Business, Liberal Education, Entrepreneurship, Artificial Intelligence and Technology

5-Year Integrated Program in Management (IPM)

This program blends traditional Business studies with Liberal Arts, while also incorporating emerging fields such as Artificial Intelligence (AI) and Technology to prepare students for the evolving business landscape.

This unique integrated program consists of 10 semesters spread over a period of 5 years, lays a robust multi-disciplinary foundation, drawing from humanities, social sciences, arts, and sciences. The cross-disciplinary business core builds upon this foundation, delving into essential areas like management, marketing, accounting, finance, economics, information systems, data science, and strategic management.

Learning in the IPM program is a dynamic journey encompassing lectures, interactive classroom discussions, experiential lessons, incisive case analyses, real-world simulations, collaborative group projects, internships, and invaluable mentorship. This immersive learning environment fosters proactive engagement and skill development.

Furthermore, the program goes beyond academic boundaries, offering life-skills courses aimed at nurturing well-rounded individuals who are not only professionally adept but also socially responsible.

The IPM program instils a global perspective in students from the outset. Through early exposure and a comprehensive curriculum, our students acquire formidable problem-solving abilities supported by sophisticated analytical techniques. They are also trained to apply ethical and socially conscious judgment when analysing complex business scenarios.

The IPM program at Chitkara University is a transformative journey that shapes future leaders with the knowledge, skills, and values needed to excel in the dynamic world of management. This holistic education integrates academic rigour with personal growth, equipping graduates to make a positive impact on society and the global business landscape.

In the first three years of the Program, students will be exposed to the following components:

CORE BUSINESS EDUCATION

The program offers a solid foundation in business disciplines like finance, accounting, marketing, operations, and management. It also emphasises strategic decision-making, corporate strategy, and entrepreneurship, with a focus on leveraging technology to optimise business solutions.

LIBERAL EDUCATION

Students engage with inter-disciplinary subjects such as philosophy, ethics, sociology, and communication, broadening their understanding of human behaviour and ethical business decision-making. The program hones critical thinking and communication skills, essential for leadership and teamwork.

ARTIFICIAL INTELLIGENCE (AI)

The program explores how AI transforms industries through automation, data analytics, and personalisation. Students gain expertise in machine learning, AI ethics, and practical business applications, empowering them with the tools for data-driven decision-making and competitive advantage.

TECHNOLOGY AND INNOVATION

Students explore emerging technologies like blockchain, IoT, and cloud computing, learning how these drive digital transformation. The program also teaches technology management, preparing students to lead tech-driven initiatives and innovation within organisations.

ENTREPRENEURSHIP

Focussing on innovation and entrepreneurship, the program equips students with the skills to launch startups, fostering a mindset to drive growth in an innovation-driven economy.

GLOBAL BUSINESS EDUCATION

Students will gain insights from renowned faculty hailing from top business schools worldwide, bringing diverse perspectives and cutting-edge knowledge into the classroom. This exposure to varied expertise and industry trends equips students to think globally and act strategically in today's interconnected world.

Students will gain unparalleled global exposure through immersive study trips, summer schools, and semester exchanges at our prestigious partner universities worldwide. These experiences provide a rich understanding of international business practices, cultures, and networks, essential for thriving in a globalised business landscape.

PROGRAM STRUCTURE

The 5-Year Integrated Program in Management is a unique and creative program and blends analytical rigour with extensive exposure to Business, Liberal Arts, Artificial Intelligence and Technology, empowering IPM students for pivotal leadership roles.

The first 3 years of this program have following academic components:

- Courses in Mathematics, Statistics and Economics build analytical rigour.
- Courses in Psychology, Sociology and Political Science along with courses in Economics provide an understanding of the core disciplines on which the study of management is based.
- Courses in Humanities, Literature and Fine Arts provide breadth and perspective.
- Introduction to basic courses in Business, Management and Accounting programs ensures a solid foundation.
- Courses in Artificial Intelligence and Technology equip students with cutting-edge digital tools to succeed in today's tech-driven world.

After 3 years of intensive study of foundational disciplines in Business, Liberal Arts, Artificial Intelligence and Technology, students from this program have the option to join the first year of MBA program at Chitkara Business School or pursue the 4th year of the BBA (Hons.) Program.

After finishing the 3rd year of the program, students will be joining the MBA program at Chitkara Business School and will have the option to choose from the following specialisations:

- Marketing & Digital Transformation
- Investment Banking
- Logistics & Supply Chain
- Finance & Banking
- Data Science & Artificial Intelligence
- Healthcare Management

In case a student does not wish to pursue the MBA Program, they have the option to exit the Program after the 4th year graduating with BBA (Hons.) in Business Management.

In the 4th year, they will have the option to minor in the offered specialisations:
Finance | Economics | Media & Journalism | Psychology and Computer Science

CAREER OPTIONS

Graduates of our IPM program, with its unique integration of Artificial Intelligence (AI) and Liberal Education, are highly sought after across various sectors. This program empowers students with AI-driven insights and a multi-disciplinary perspective from the Liberal Arts, making them versatile and forward-thinking professionals, equipped for dynamic roles in data analytics, AI strategy, digital marketing and operations management. Industries like tech, consulting, finance, and digital media highly value these graduates. As business continues to evolve with AI, our graduates are prepared for leadership roles that bridge technology, creativity, and business acumen, meeting the demands of a modern, interconnected economy.

Students will have internship opportunities along with campus recruitments in top companies such as:

BBA (Hons.) - Liberal Education

BBA (Hons.) - Liberal Education program combines Business, Liberal Arts, Artificial Intelligence & Technology to prepare students for leadership in a dynamic world. This unique Degree program builds a strong foundation in business essentials like Finance, Marketing and Data Science while broadening perspectives through interdisciplinary studies in ethics, sociology, and psychology.

4-Year BBA (Hons.) - Liberal Education

4-Year BBA Liberal Education Program with major in Business Management and option to choose your minor from various specialisations in the 4th Year.

This program integrates business studies, Artificial Intelligence and Technology with the flexibility of Liberal Arts, providing a holistic learning experience. It prepares students for leadership roles across industries by fostering adaptability, creativity, and strategic thinking.

This program is designed for students who want to explore the intersection of business and the liberal arts and provides a balanced curriculum that combines practical business knowledge with critical thinking, ethical reasoning, and an understanding of human cultures and values. Students gain a robust foundation in key business areas such as accounting, finance, marketing, and management, while also developing an appreciation for disciplines like philosophy, history, sociology, literature, and psychology.

One of the unique advantages of this degree is its focus on producing well-rounded, adaptable graduates who can think critically and communicate effectively—skills that are highly sought after in the modern workforce. The liberal education component helps students to develop an understanding of complex societal issues, cultural diversity, and global perspectives, preparing them for leadership roles in an increasingly interconnected world.

The program is ideal for those who aim to pursue careers in fields such as consulting, public relations, marketing, management, and entrepreneurship and provides a strong foundation for those interested in graduate studies, including law, public policy, and international relations. This inter-disciplinary approach equips students with a versatile skill set, making them well-prepared to navigate a range of professional environments and to address multifaceted problems creatively and ethically.

In the 4th year, they will have the option to minor in the offered specialisations such as Finance, Economics, Media & Journalism, Psychology and Computer Science, among others.

In the first three years of the Program, students will be exposed to the following components:

CORE BUSINESS EDUCATION

The program offers a solid foundation in business disciplines like finance, accounting, marketing, operations, and management. It also emphasises strategic decision-making, corporate strategy, and entrepreneurship, with a focus on leveraging technology to optimise business solutions.

LIBERAL EDUCATION

Students engage with inter-disciplinary subjects such as philosophy, ethics, sociology, and communication, broadening their understanding of human behaviour and ethical business decision-making. The program hones critical thinking and communication skills, essential for leadership and teamwork.

ARTIFICIAL INTELLIGENCE (AI)

The program explores how AI transforms industries through automation, data analytics, and personalisation. Students gain expertise in machine learning, AI ethics, and practical business applications, empowering them with the tools for data-driven decision-making and competitive advantage.

TECHNOLOGY AND INNOVATION

Students explore emerging technologies like blockchain, IoT, and cloud computing, learning how these drive digital transformation. The program also teaches technology management, preparing students to lead tech-driven initiatives and innovation within organisations.

ENTREPRENEURSHIP

Focussing on innovation and entrepreneurship, the program equips students with the skills to launch startups, fostering a mindset to drive growth in an innovation-driven economy.

BBA in Artificial Intelligence & Future Technologies

The BBA in Artificial Intelligence and Future Technologies bridges the worlds of management and innovation, preparing students to lead in an era defined by digital transformation. Integrating strategic thinking with AI, analytics, and emerging technologies, the program nurtures agile, future-ready professionals capable of driving intelligent decision-making and transformative business growth across industries.

3-YEAR

BBA in Artificial Intelligence & Future Technologies (AIFT)

Student has the option to extend their program by one more year to obtain BBA (Honours) degree

Program Overview

The BBA in Artificial Intelligence and Future Technologies (AIFT) is a cutting-edge undergraduate degree combining business fundamentals with in-depth exposure to AI, machine learning, and emerging tech. Designed to produce future-ready business leaders, this interdisciplinary program empowers graduates with both strategic acumen and technical fluency to drive digital transformation in any industry.

Key Program Highlights

This program provides holistic learning through a blend of management studies and advanced AI-based technologies. Students benefit from a forward-looking curriculum that bridges academia with industry needs. Some of the key highlights of this program are:

- Blend of core business education and advanced AI concepts.
- Industry-oriented curriculum with case studies, internships, and hands-on tool training.
- Specialisations in domains like HealthTech, AgriTech, FinTech, Digital Marketing, HR Tech & Supply Chain.
- Practical exposure via capstone projects, technical internships, and real-world simulations.

Program Structure

The structured curriculum ensures progressive learning, starting with foundational business skills and building up to advanced technological expertise. Each year is mapped to deepen both managerial capabilities and sectoral specialisation. Some of the courses covered in the program are as follows:

YEAR 1: BUSINESS FOUNDATION AND DIGITAL LITERACY

- Principles of Management, Marketing, and Financial Analysis
- Introduction to Emerging Technologies and AI Tools in Business
- Digital Communication, Mathematics for Business & Environmental Sustainability
- Logic, Reasoning & Data Analytics Primer

YEAR 2: APPLIED AI AND SECTORAL TRACKS

- Introduction to AI, Python/R Programming & Machine Learning Basics
- Digital Business Applications, Organisational Behaviour in Tech
- Cloud Computing, Cybersecurity & Innovation Management
- Electives in HealthTech, AgriTech, or GreenTech

YEAR 3: ADVANCED TECH AND BUSINESS INTEGRATION

- Robotics, Automation, and AR/VR in Business
- Supply Chain Management with AI
- Blockchain, Big Data & UI/UX Design for AI
- AI-Driven Marketing Strategies
- Technical Internship and Capstone Project

YEAR 4: SPECIALISATION AND PROFESSIONAL READINESS

- Business Intelligence, Advanced Analytics and Entrepreneurship
- Quantum Computing, NLP, and Edge AI
- Explainable AI, Ethics & Governance in AI
- Capstone Project II, Portfolio Development, and Placement Preparation
- Design Thinking for Digital Innovation

What Sets Us Apart

The program stands out for:

- Dual focus: management excellence and technical innovation
- Multiple internships and industry capstone projects
- Exposure to leading digital tools (Python, SQL, Tableau, Power BI, AR/VR)
- Ethics, governance, and design thinking modules included
- Prepares for further study in analytics, management, or future tech domains

CAREER OPTIONS

Graduates from this program are prepared for dynamic, future-oriented roles that are in high-demand across diverse sectors. They gain both technical support and managerial leadership skills highly valued by employers. Potential roles include: AI Business Analyst | Product Manager (AI platforms) | Digital Strategy Consultant | Business Intelligence Specialist | AI/Tech Startup Founder | Digital Business Consultant

There are a number of industries that are looking to hire BBA AI graduates such as: IT, Finance, Retail, E-commerce, Healthcare, Digital Marketing, HR Tech, Creative Media, Agriculture, Logistics, and more.

3-Year BBA with specialisation in Data Science and Artificial Intelligence

Student has the option to extend their program by one more year to obtain BBA (Honours) degree

Developed in collaboration with world's leading consulting firm EY India, the 3-Year BBA in Data Science and Artificial Intelligence (AI) program is designed to equip graduates with the expertise to harness the power of data analytics and Artificial Intelligence (AI) to drive business decisions and strategies.

Knowledge provider

In a world where data is the new currency and AI is transforming industries, the need for business leaders who can harness these tools has never been greater. The BBA in Data Science and Artificial Intelligence is designed for professionals who aspire to lead in the rapidly evolving landscape of technology and business.

This unique program merges the principles of business administration with the technical expertise of data science and AI, equipping you to make strategic decisions based on data insights and innovation.

Tailored for students and professionals alike, this program addresses industry needs by training graduates to apply AI and data science methodologies to solve complex business challenges, paving the way for innovation and competitiveness in the data-driven future.

The BBA in Data Science and Artificial Intelligence equips you with the skills to gather, analyse, and interpret data, while using AI-driven techniques to enhance business decisions. As AI continues to evolve, its integration into business processes is becoming essential, shaping industries and unlocking new growth opportunities.

This dynamic course combines theoretical learning with practical application, involving real-world problems to create innovative systems, products, and business outcomes. Businesses today demand professionals who can effectively integrate data, AI, and business insights to improve ROI, streamline processes, reduce costs, create intelligent products, and enhance customer experiences. The program provides essential skills in data science, AI, business strategy, and programming.

Key Program Features

Focus on advanced data analytics and AI tools for managers.

Application of AI-driven techniques like machine learning and Natural Language Processing (NLP) for business analysis.

Developing the ability to extract meaningful insights from large datasets and effectively present findings using Business Intelligence (BI) tools.

Learn to leverage AI-powered analytics to gain insights into business trends.

This specialised BBA program in Data Science and Artificial Intelligence blends core business management principles with advanced data science techniques and AI applications.

This unique program merges the principles of business administration with the technical prowess of data science and AI, equipping you with the skills to make strategic decisions based on data insights and innovation.

A Dual Focus on Business and Technology:

In this strategically designed program, you'll gain expertise in traditional BBA subjects such as leadership, finance, marketing, and operations, while mastering cutting-edge technologies like machine learning, predictive analytics, and AI-driven decision-making.

Advanced Courses in Data Science and AI:

With the increasing reliance on data-driven strategies, this program includes specialised courses such as:

- **Machine Learning and Deep Learning:** Understand the core algorithms driving AI.
- **Big Data Analytics:** Learn to analyse massive datasets for valuable insights.
- **Natural Language Processing (NLP):** Explore how AI can process and understand human language.
- **Data Visualisation and Storytelling:** Convert data into actionable insights with powerful visual tools.
- **AI for Business Strategy:** Leverage AI to optimise business operations, enhance customer experiences, and drive innovation.

Real-World Application and Capstone Projects:

Throughout the program, you will work on real-world projects, applying data science and AI techniques to solve complex business problems. Our capstone project lets you collaborate with industry partners or work on a startup initiative, gaining practical experience in implementing AI-driven solutions in business settings.

Industry-Relevant Skill Development:

In addition to theoretical knowledge, this program emphasises practical skills that today's employers demand:

- **Programming and Data Analysis Tools:** Proficiency in Python, R, SQL, and data visualisation platforms such as Tableau and Power BI.
- **AI Model Deployment:** Learn to deploy machine learning models in production environments.
- **Cloud Computing and Big Data Technologies:** Hands-on experience with platforms like AWS, Google Cloud, and Hadoop.

CAREER OPTIONS

Graduates of the BBA in Data Science and Artificial Intelligence program are well-equipped for dynamic roles in industries like finance, healthcare, retail, technology, and logistics. Career opportunities include positions such as Business Analyst, Data Scientist, AI Specialist, Machine Learning Consultant & Operations Analyst.

Students will have internship opportunities along with campus recruitments in top companies such as:

3-Year BBA with specialisation in Aviation Management

Student has the option to extend their program by one more year to obtain BBA (Honours) degree

BBA-Aviation Management at Chitkara Business School imparts in-depth knowledge in the core areas of management and business and specific areas related to aviation business, airlines and airports. This program seamlessly integrates practical and theoretical learning, enhanced by industry-endorsed certifications from IATA and AeroTech.

A BBA in Aviation Management equips students with both technical and managerial skills for successful careers in airline, airport management and related fields.

After completing the program, one can get a variety of roles responsible for the overall operations of any airline. These jobs include supervising both flight and ground operations, cargo, and baggage handling, and coordinating flight and ground crew members.

Aviation management is a bigger umbrella with multiple jobs, including supervising routine operations, managing everything from higher to lower levels at the airport, airlines, and the aviation sector. There are numerous other jobs as well that are focused on customer service, airport operations and revenue management.

In addition, the administrative staff of any airport must be conversant with aviation management to work on high-level positions where they can be entrusted with airport security and air cargo terminal.

The program enables the students to learn the value added skills apart from leadership and organisational skills, integral to the aviation industry. Students will be taught the critical elements of flight, ground, cost adequacy along with the administration ability to foresee and govern the business operations.

Specialised certificate courses will be offered in collaboration with IATA and AeroTech Support Services to prepare students for careers such as airline operations, transportation, airport management, aviation safety and security, cargo security and revenue management.

Some of the focus areas covered are

[Fundamentals of Aviation](#)

[Cargo Introductory Course](#)

[Airline Customer Services](#)

[Fundamentals in Travel and Tourism](#)

[Airline Marketing](#)

[Aviation Security Awareness](#)

[Airline Revenue Management](#)

[Cargo Security Awareness](#)

3-Year BBA with specialisation in **FinTech with Artificial Intelligence**

Student has the option to extend their program by one more year to obtain BBA (Honours) degree

The BBA in FinTech program integrates finance fundamentals with Artificial Intelligence and emerging financial technologies. Developed with insights and inputs from leading industry partners such as Zerodha, Deloitte and Paytm, the curriculum equips students with skills in blockchain, machine learning, robo-advisory, cybersecurity & InsurTech - key drivers of the future of finance and prepares you for roles like FinTech Consultant, AI Specialist and Quantitative Analyst.

FinTech in India is experiencing rapid expansion, projected to reach a potential market of \$600 billion to \$2.1 trillion by 2030, fueled by government initiatives, digital infrastructure like UPI, and growing smartphone penetration according to Dun & Bradstreet.

Globally, FinTech also shows robust growth, driven by demand for convenient financial solutions & a shift towards profitable growth models. India is becoming a key player, attracting significant investment and fostering a thriving ecosystem of FinTech firms.

The objective of the course is to provide students with an overview of FinTech and an introduction to its applications in financial services, such as commercial and investment banking, digital investing, financial advising and insurance.

This industry-led program prepares the students aspiring to establish their presence in the FinTech domain to meet the challenges of a career in this sector that is presently witnessing a number of technological disruption-led changes.

The FinTech segment has evolved rapidly over the years, presenting exciting and challenging opportunities in domains spanning across Banking, Capital Markets, Digital Finance and Alternative Finance.

To meet this challenge and to capitalise on these emerging opportunities, the program has been tailored to equip students with in-depth conceptual understanding and hands-on experience in the emerging FinTech space as well as exposing them to the other functional areas of management.

In this Program, students will understand basic concepts of:

Neo-Banking

Blockchain

Digital Currency

Cyber Security

Machine Learning

Mobile Wallets

Robo-Advisors

Regtech

InsurTech

PROGRAM STRUCTURE

Some of the courses covered in the Program:

- Fundamentals of Financial Technology
- Basics of Blockchain and Digital Currency
- Research and Consumer Insights in Banking
- Digital Banking trends, future of banking and omni-channel experience
- Digital Visualisation and Dashboarding
- Fintech applications in Financial Services
- Digital Strategy and Ecosystem
- Cryptocurrency and Decentralised Finance
- Introduction to Algorithm Trading
- Python for Finance
- The FinTech Evolution: Brick to Click
- Digital payments and Mobile Wallets
- Lending and Credit Technologies
- Neo-Banking and Digital Customer experience
- Investment Management & Robo Advisors
- BlockChain and Cryptocurrency
- Cybersecurity in FinTech
- Insurtech and Micro insurance
- Regtech: Compliance and Risk Management
- IoT for FinTech

Students are encouraged to pursue several value-added courses. They can electives from various streams like Economics, Psychology, Economics, Law and Computer Applications. Real-world cases & assignments are embedded in the program. In the last semester students are able to apply their knowledge to a real-world like project.

CAREER OPTIONS

Potential career roles for FinTech graduates are Financial Analysts, Blockchain Consultants, Risk Analysts & Product Managers in digital finance. They find opportunities in sectors like banking, investment firms, digital payment companies, insurance and e-commerce platforms. Skilled in blockchain, cryptocurrencies and AI-based financial solutions, they can work in digital banking, robo-advisory services, P2P lending platforms & have options in regulatory technology (RegTech) firms, payment gateways and startups focusing on innovative financial products.

Students will have internship opportunities along with campus recruitments in top companies such as:

3-Year BBA with specialisation in Digital Transformation & Strategy

Student has the option to extend their program by one more year to obtain BBA (Honours) degree

Digital Marketing is one of the world's fastest-growing fields, and this program is designed to enhance your market value and career prospects. The BBA in Digital Marketing combines strong academic foundations with industry-relevant training, enriched by insights and inputs from partners such as IIDE. Students gain hands-on expertise to design, launch, and manage impactful, data-driven digital marketing campaigns.

The digital marketing career scope in India will be worth US\$160 billion by 2025, making it three times the current value (Goldman Sachs, 2020). The BBA program in Digital Transformation and Strategy at Chitkara Business School will enable you to understand the digital customer behaviour, build digital marketing strategies and identify in-demand metrics to effectively measure and optimise ROI. This program will help you plan and execute transformational digital marketing strategies and best practices.

This program provides you with an in-depth understanding of marketing principles, advertising & persuasion, consumer behaviour & e-commerce. You'll learn how to study human behaviour and how to discover the needs and preferences of consumers and use this information to market a product or service effectively.

With this program in Digital Transformation and Strategy, you will develop tools to master the mobile environment, specialise in social media and evaluate the metrics that lead to stronger campaigns. Some of the tools that you will master with this program are: Google Ads | Facebook Ads | WebEngage | Databox | X Ads | Google Analytics | LinkedIn | Amazon Associates | WordPress | MailChimp | Ahrefs | Google Keyword Planner | Blogger | Canva

Our collaboration with industry and training entities, such as Indeed SEO and Indian Institute of Digital Education (IIDE) respectively, aid students' skill development, internships, on-the-job training, curriculum enhancement by the experts & practitioners of the digital marketing area.

**In this Program,
students will understand
basic concepts of:**

Digital Marketing

Website Creation

Search Marketing

Content Marketing

Social Media Marketing
and & Management

Search Engine Optimisation

Online Advertising

Mobile Marketing

E-commerce

Understanding the Digital Marketing Landscape and Customer Funnel

This course provides a clear overview of the digital marketing world. Discover how players such as ad networks, demand-side platforms and data management platforms interact with advertisers, agencies and publishers. Then learn how to use time-proven frameworks to assess your customers' needs and identify your primary marketing objectives and performance of digital marketing campaigns.

Assessing Opportunities in Paid Digital Media

In addition to display ads, paid media includes initiatives like search engine marketing, email marketing, video marketing, social media ads, and mobile ads. This course provides a tour of opportunities and strategies associated with these various paid media channels.

Assessing Opportunities in Owned Digital Media

Marketing within your own digital properties such as your organisation's website, blog or social media pages is an effective way to build deeper relationships with existing customers and attract the attention of new ones. You will learn more about content marketing, search engine optimisation, social media "fan pages", mobile apps, and virtual reality apps and assess the relevance of owned media initiatives for your own marketing objectives.

Implementing an Integrated Digital Marketing Plan

Properly utilising digital marketing allows you to promote your products and services while building customer relationships. This course will help you evaluate and combine your ideas to create a single, all-encompassing marketing plan. It will include the priorities, resourcing & performance metrics.

CAREER OPTIONS

Graduates of this program can explore diverse career pathways such as: Digital Marketing Specialist, SEO Analyst, Social Media Manager, Content Strategist and Email Marketing Coordinator. They can work in industries such as e-commerce, advertising, technology, media & retail, where digital strategies are crucial for customer engagement and brand growth.

Students will have internship opportunities along with campus recruitments in top companies such as:

3-Year BBA with specialisation in **Logistics & Supply Chain Management**

Student has the option to extend their program by one more year to obtain BBA (Honours) degree

Chitkara Business School's BBA in Logistics & Supply Chain Management offers a solid understanding of global supply chain operations, with a focus on optimising logistics and business performance. The program blends management fundamentals with practical insights from industry partners such as Om Logistics Ltd., The Chartered Institute of Logistics and Transport and CJ Darcl Logistics, equipping students to excel in the field.

Over the past fifty years, supply chain management has rapidly evolved into a critical discipline, driven by advances in technology and the growing complexity of global commerce. Today's supply chains demand agility, resilience, and sustainability, powered by data analytics and innovative solutions. Chitkara Business School's BBA in Logistics & Supply Chain is thoughtfully designed to equip students with the skills and leadership qualities needed to excel in this dynamic and vital field.

Program Highlights

The BBA in Logistics & Supply Chain delivers supply chain management, logistics education and advanced professional skills. The program helps students understand and appreciate the application of ethics, sustainability and professional practices in supply chains.

This program is a hands-on degree with a practical component, which equips students with the skills and knowledge required to work professionally in logistics & supply chain management fields.

Laser Focus on Industry Best Practices

The program focuses on global best practices and makes extensive use of "real-life" case studies. It will cover core and contemporary supply chain topics relevant to practitioners from a wide range of industry sectors. It is designed for those who wish to advance their knowledge and careers in Logistics and Supply Chain Management.

Delivered by industry experts, this program offers students an educational experience that is rooted in real-world practice and current industry needs.

After graduation, BBA students normally start on following profiles:

Logistics & Distribution Manager

Supply Chain Analyst

Supply Chain Coordinator

Supply Chain Manager

Supply Chain Consultant

Expeditor

Materials Planner

Production Planner

Sales Order Planner

Master Scheduler

Demand Planner

Procurement Consultant

Customer Service Executive

CAREER OPTIONS

Graduates can explore a variety of career opportunities across industries such as manufacturing, retail, transportation, e-commerce, and consulting. Typical roles include Supply Chain Manager, Logistics and Distribution Manager, Procurement Consultant, Supply Chain Analyst, Production Planner, and Demand Planner. Key sectors like FMCG, e-commerce, automotive, and logistics service providers are actively seeking such professionals. As the demand for more resilient and efficient supply chains grows, this field offers promising career opportunities for leadership advancement.

Students will have internship opportunities along with campus recruitments in top companies such as:

3-Year BBA Professional

Student has the option to extend their program by one more year to obtain BBA (Honours) degree

The Bachelor of Business Administration (BBA) Professional program provides a strong foundation in core business disciplines, preparing students to lead with practical skills and industry-relevant insights. The curriculum is continuously enhanced through contributions from a diverse network of industry and knowledge partners, including NIFM and Paytm, ensuring graduates are ready to meet evolving business challenges.

The globalisation of the Indian economy has intensified global competition, driving businesses to seek professionals equipped with essential skills. Recognising this, the BBA Professional Program at Chitkara Business School empowers students to transform products and services into necessities for their target audience through an industry-aligned curriculum.

The 3-Year BBA program provides a strong foundation in core business disciplines like General Management, Accounting, Marketing, Finance, Organisational Behaviour, and Strategy, while also incorporating global trends and successful marketing strategies. With strong industry collaboration, the curriculum remains relevant, preparing students to analyse consumer behaviour and create impactful products.

The program emphasises critical management attributes such as communication, decision-making, and interpersonal skills, enhancing the ability to analyse situations using both quantitative and qualitative factors.

In the final year, students have the opportunity to specialise in various business domains and may choose to spend a term studying abroad at one of Chitkara University's partner business schools.

A mandatory industry internship, a vital component of the curriculum, allows students to apply theoretical knowledge in real-world scenarios. The internship is rigorously evaluated by industry supervisors, focusing on both conceptual understanding and behavioural competencies, providing a holistic view of different functional areas and the business environment.

Some of the modules covered in the Program are:

- Distribution Management
- Marketing Research
- Communication Skills
- Market Strategies
- Product Management
- Marketing Analytics
- Product Promotion
- Sales Development
- Digital Marketing
- Leadership skills

CAREER OPTIONS

Graduates of the BBA in Professional Management have diverse career prospects across industries due to the program's broad foundation in management skills. Key roles include business analysts, product managers, marketing coordinators, human resource specialists, and operations managers, which are in demand across sectors like finance, IT, retail, and consulting. This versatility allows graduates to pursue positions in both corporate and startup environments, supporting roles that involve business development, digital marketing, and financial analysis. Many students also advance into specialised fields or pursue higher studies to further refine their expertise.

Students will have internship opportunities along with campus recruitments in top companies such as:

3-Year BBA with specialisation in Retail Management

Student has the option to extend their program by one more year to obtain BBA (Honours) degree

This industry-driven BBA program blends marketing and retailing courses to prepare students for executive roles in retail management, buying, product development and visual merchandising. The curriculum incorporates ongoing inputs from leading industry and knowledge partners, ensuring graduates are ready for dynamic careers in the retail sector.

India stands as the world's fifth-largest retail destination, boasting a billion-dollar plus industry. Consequently, this sector demands a substantial pool of skilled professionals in Management and Marketing. Over the years, India's retail landscape has undergone a remarkable transformation, driven by technological advancements, the surge of e-commerce, shifts in consumer behaviour and evolving market dynamics. The retail sector in India is becoming increasingly cashless, with the rapid adoption of digital payments, in turn reshaping the industry through data-driven decision-making and the integration of physical and digital shopping experiences, facilitated by technologies such as AR and VR.

To succeed in retail marketing, understanding the end consumer is key. With India emerging as a top retail destination, it attracts many college graduates yearly.

Chitkara Business School plays a vital role in equipping students for the retail sector. Our BBA in Retail Management program covers topics like Service Operations, Consumer Behaviour, Sales Management, Marketing Management, Visual Merchandising, Category Management & Supply Chain.

The program also includes a mandatory Industry Internship, providing students with hands-on experience and making them 'Industry-Ready' upon graduation.

Our BBA in Retail Management program plays a pivotal role in moulding professionals for India's dynamic retail sector. With the constantly changing landscape of retail, our curriculum continuously adapts to stay ahead. Moreover, our mandatory Industry Internship offers hands-on experience, ensuring graduates are 'Industry-Ready' upon completion.

Our graduates normally get hired as:

Retail & Wholesale Sales
Marketing Management
Product Merchandise Planning
Market Research
Visual Merchandising
Business Management
Retail Manager
Inventory Manager
Shopping Operational Manager

CAREER OPTIONS

Graduates of the BBA in Retail Management program have access to career opportunities in industries like e-commerce, fashion, FMCG (Fast-Moving Consumer Goods), and technology. These professionals often pursue roles such as Retail Manager, Visual Merchandiser, Product Development Manager, and Inventory Control Specialist. Retail graduates are highly sought after by companies needing expertise in market research, digital merchandising, and consumer behaviour analytics as the sector becomes increasingly data-driven. Careers in customer experience management, category management, and sales operations are also popular pathways, especially in retail giants and consulting firms. This degree provides graduates with the versatile skills to thrive in both traditional and online retail environments.

Students will have internship opportunities along with campus recruitments in top companies such as:

3-Year B.Com

Student has the option to extend their program by one more year to obtain B.Com (Honours) degree

The B.Com program at Chitkara Business School is a focused, career-driven degree that builds a strong foundation in commerce and business. The program stands out for its practical orientation, strengthened through industry insights and engagement with partners such as TEPL, NISM, and MCX.

The B.Com program is a comprehensive academic endeavour that delves deep into the realms of Accounting, Taxes, Investment, and Wealth Management. This program employs a holistic, multi-disciplinary approach to provide students with a well-rounded skill set and proficiency in various domains of Commerce and Management. Beyond these core subjects, students also gain invaluable insights into Finance, Economics and Entrepreneurship, ensuring they graduate with a thorough & diverse knowledge base.

India has a diversified Financial Sector undergoing rapid expansion, both in terms of strong growth of existing financial services firms and new entities entering the market. The sector comprises commercial banks, insurance companies, non-banking financial companies, co-operatives, pension funds, mutual funds and other smaller entities.

Financial Markets are poised to emerge as the sector with immense potential for employment generation. Experts believe that the financial sector will be the next big thing after IT in creating employment and providing scope for self-employment opportunities.

It prepares the students with managerial skills to pursue opportunities in growing areas of Finance & Accounting, as well as Tax Planning. The advanced courses are also aimed to prepare students for success in professional certifications. The academic framework of the program includes several live industry projects, industry internship, e-commerce & cyber-security, forensic accounting and global immersion program. The main emphasis of this course is to impart specialised skill-sets in various areas of finance with a view to help them have successful careers in accounting.

Students will understand basic concepts of:

Fundamentals of Financial Technology

Investment Banking

Forensic Accounting

Sustainability and Environmental Accounting

Corporate Governance in Financial Institution

Wealth Management

Block Chain & Digital Currency

Neo Banking & Digital Customer Experience

Transforming Operating Models

International Finance

Generative AI for Business

Tally Software

3-Year

B.Com in collaboration with

Student has the option to extend their program by one more year to obtain B.Com (Honours) degree

Chitkara University's B.Com in collaboration with ACCA, offers a powerful blend of finance, accounting, and business management, shaping future leaders for global careers in finance, accounting, and business.

Chitkara University's B.Com, in collaboration with ACCA, is a specialised program that combines the study of finance and accounting with business management. The program is tailored for students aspiring for careers in finance, accounting or business, equipping them with comprehensive knowledge and skills required to lead teams and make strategic decisions in complex business environments.

The program is globally recognised, providing aspiring financial professionals with an edge in their careers. Graduates can pursue careers in diverse industries such as banking, consulting, accounting, and corporate finance. The program covers topics such as financial accounting, management accounting, taxation, audit & assurance, financial management, business law, and economics.

The program includes specialised courses in international finance, financial reporting, and strategic management.

About ACCA

ACCA is the Association of Chartered Certified Accountants. It is a membership body which accredits and supports professional accountants all over the world. Since it was founded in 1904, it has been proud to lead the profession and thanks to us, hundreds of thousands of people have rewarding careers in accountancy.

Students who complete an ACCA certification are authorised to offer general accountancy services to individuals and businesses across the globe. This certification also serves as a license to practice, enabling students to engage in general accountancy services.

Students may look forward to gratifying careers as

Financial Planner

Management Consultant

Risk Analyst

Mutual Fund Manager

Investment Banker

Tax Consultant

Business Analyst

Accountant / Auditor

Wealth Manager

Elevate Your Career and Enhance Your Opportunities with these Certifications:

Our Commerce students will have the option to pursue certifications from following niche areas of core finance industry.

KCAP certification from KPMG

The Certified Accounting Professional (KCAP) course, conducted by KPMG India and affiliated with KPMG International, provides a comprehensive understanding of accounting advisory, international accounting, and indirect taxation. Regularly updated to reflect industry practices, the program develops analytical, managerial, and leadership skills through real-world exposure and expert sessions. This globally recognised certification enhances professional competence and strengthens career prospects in finance and accounting.

Multi Commodity Exchange Certification from (MCX)

The MCX Certification, offered alongside the B.Com program, deepens understanding of commodity markets, trading strategies, and risk management. It complements core commerce learning with practical insights into finance and investments. This specialised qualification broadens career opportunities in brokerage firms, trading houses, financial institutions, and advisory services, equipping students with both theoretical grounding and applied expertise in the evolving field of commodities and finance.

Licentiate from Insurance Institute of India

The Licentiate Certification from the Insurance Institute of India offers in-depth knowledge of insurance principles, regulations, and operations. Covering underwriting, risk assessment, and claims management, it is a nationally and internationally recognised credential. Commerce students at CBS may pursue this certification to gain professional competence and a competitive edge in the insurance sector through a strong hold on industry practices and regulatory frameworks.

Tally Accounting certification

The Tally Accounting Certification provides practical training in one of the most widely used accounting software systems. Covering financial accounting, inventory management, and taxation, it enables students to maintain accurate financial records and reports. Recognised for its relevance and application, this certification enhances employability and prepares students for accounting and finance roles that demand proficiency in digital financial management tools.

Company Secretary course with ICSI

The Company Secretary (CS) course, offered with the Institute of Company Secretaries of India (ICSI), builds expertise in corporate governance, company law, and compliance. Designed for B.Com students, it prepares future professionals for leadership roles in corporate and legal domains. Recognised nationally and internationally, the CS qualification underscores proficiency in regulatory affairs and ethical corporate management, creating opportunities in both private and public sectors and compliance.

CA with ICAI

The Chartered Accountancy (CA) program, offered in partnership with the Institute of Chartered Accountants of India (ICAI), provides rigorous training in accounting, auditing, taxation, and financial reporting. Globally respected for its depth and precision, the CA qualification equips students with advanced financial expertise and analytical skills. Pursuing this pathway strengthens career opportunities across industries and establishes a strong professional standing in accounting and finance.

CAREER OPTIONS

Graduates of the B.Com program at Chitkara Business School have access to diverse career pathways in finance, accounting, banking, and management. With strong foundations in accounting, taxation, and investment, they are well-prepared for roles such as Financial Analyst, Tax Consultant, Accountant, Investment Banker, and Business Consultant. Industries including banking, insurance, corporate finance and investment services actively seek B.Com graduates. The program also provides a strong base for professional certifications and advanced careers in finance and accounting.

Students will have internship opportunities along with campus recruitments in top companies such as:

3-Year B.Sc (Economics) with specialisation in Data Science & Artificial Intelligence

Student has the option to extend their program by one more year to obtain B.Sc (Honours) degree

The B.Sc in Economics with Data Science & Artificial Intelligence is designed to produce graduates skilled in applying economic knowledge to real-world financial, analytical, and ethical challenges. The program is enriched with insights and inputs from knowledge partners such as LinkedIn and Grant Thornton, ensuring alignment with current industry practices and emerging economic trends.

The course will enable the students to effectively apply their knowledge and skills to situations of economic, institutional and policy making both in governance and industry.

This unique course offers the opportunity of studying the traditional curriculum in economics alongside advanced data analytics and data science methods.

The principal courses include introductory microeconomics and macroeconomics, statistical techniques for economics and mathematical techniques for economics.

The course has a rigorous focus on quantitative techniques and research methods which will orient the students in dealing with economic problems with a practical and analytical approach.

The comprehensive and wide scope of the course ensures that students receive sufficient experience of the current issues and crisis of the world especially that of the emerging economies.

The second year would comprise intermediate microeconomics and macroeconomics, introductory econometrics, Indian Economy, public economics and development economics. In third year, students will have the option to pursue electives apart from intensive focus on Applied Econometrics and Financial Economics.

Students will have a 6-month internship in the last semester with major financial institutions and government organisations, providing invaluable real-world experience and networking opportunities.

In addition to Economics, some of the Data Science & AI modules covered are:

Data Warehousing and Cloud Computing

Applied Statistics

Advanced Excel for Decision Science

Data querying with SQL

Predictive Modelling

Data Visualisation & Storytelling

Big Data Analytics

Artificial Intelligence & Machine Learning

Functional Analytics

CAREER OPTIONS

This undergraduate program in Economics aims at developing among students a sound theoretical understanding of the subject along with practical applications. The idea is to encourage broad based understanding with greater depth in areas of particular interest to students. Studying economics today opens up several possibilities for the future and the idea is to guide students in selecting their own trajectory in career advancement. For instance, graduates typically will be suited for Investment Banks, Asset Management Firms, Management Consultancy Firms, Banking & Financial Services, Trading Desks, Tax & Advisory Firms and Policy Think Tanks.

Students will have internship opportunities along with campus recruitments in top companies such as:
