

AIR QUALITY FORM

Chitkara University, Punjab Campus

Air Quality Audit

S.No.	AQI Measured	Calculations	Proofs
1.	Calculate the percentage of	4000 (by bus) + 6000	List of students and staff
	college inhabitants using	(residing in hostel)	members (teaching and non-
	public/green commuting	Total = 14638	teaching) commuting by college
	practices	% = 36.6 %	bus, public transport, bicycle,
			walking and private transport.
	Points: 04		
			Google map showing bus
			stops/railway or metro station
			located within 500 m of walking
			distance from the college.

1) Total number of people in the University = 14638

Number of people using metro, bus, green transport = 4000 (college bus)

People coming by foot, on bicycle = 6000 (hostel residents)

People using personal cars, motorbikes, auto rickshaw and taxi services like OLA, UBER = 4638

College transport footprint = (10000-4638)/14638 = 36.6%

S. No.	AQI Measured	Calculations	Proofs
2.	Calculate the parking percentage		Site plan showing the
	area in your college. If there is		parking spaces provided for
	no parking, how are you		buses and cars.
	managing the parking?		
			Photographs showing the
	Calculate the percentage of		Provided parking spaces.
	bicycle parking.		
			Calculation sheet for
	Points: 02		calculating percentage of
			parking area. Proof of any
			Alternative arrangements
			for parking space, if any.

There are 6 different parking area on the campus namely: Chai chaska bar parking Turing parking Sub station parking Tesla parking Football ground parking Newton additional area parking

S. No.	AQI Measured	Calculations	Proofs
3.	Provide adequately ventilated and daylit	Yes	- Calculation sheet
	occupied spaces.		demonstrating the percentage
	Calculate percentage of daylit and		of ventilated and day lit area
	ventilated		- Floor plans showing the opening
	space in the college.		and exhaust systems (if
	At least 50% of the regularly occupied	Yes	available)
	spaces		- List of regularly and non-
	should meet the minimum illumination		occupied spaces
	level/daylight factor.		- List the number of rooms used
	Do you have exhaust facilities in all	Yes	for canteen, laboratories and
	canteens,		washrooms
	laboratories and washrooms? (Yes/No)		- Photograph of each showing
	Points: 03		exhaust facility

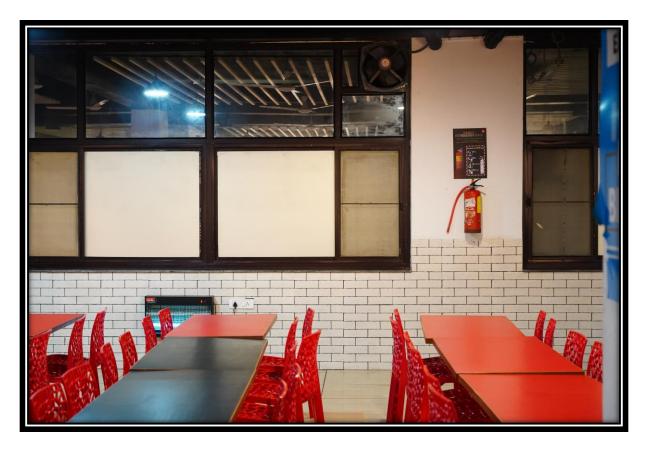

Exhaust facilities in canteen/mess

Exhaust facilities in laboratories

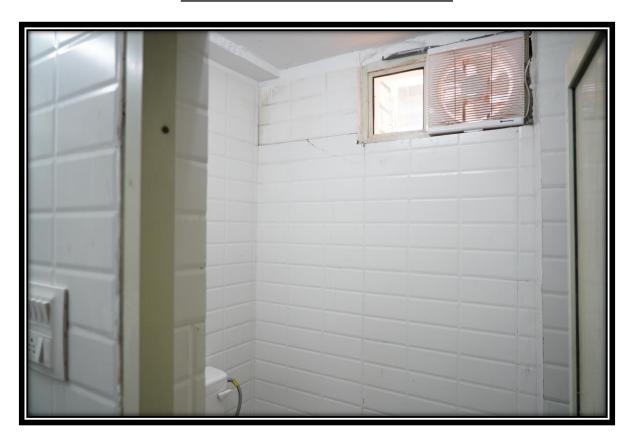

Natural ventilation in the dry labs where there are no emissions

Exhaust facilities in the washrooms

S. No.	Interview questions	Answers	Photos
1.	Do you have biennial,	Yes	
	annual or perennial plants?		
2.	What do you do to the	All the dried fallen leaves	
	fallen	are collected and	
	dried leaves?	converted to manure	CE ES
3.	Do you know about the	Yes. It leads to global	
	harmful effects of burning	warming, acid rain and	
	the leaves?	various health issues such	
		as respiratory diseases,	
		lung diseases	
4.	Do you know about	Yes	
	composting and mulching?		
5.	Do you practice	Yes	
	composting of		
	the dried leaves?		

S. No.	AQI Measured	Calculations	Proofs
4.	A)		Video footage of the interview of
	Is your Gardening staff burning the fallen	No	your school gardener saying leaves
	leaves?		are not burned by the school.
	Points: 01		
	B)		
	Do you use Dust free products indoors	Yes	List of green/dustfree/environment
	(chalk, duster)? (Yes/No)		friendly products (paints, cleaning
			agents, etc.) used in the college,
	Does the college use green products (like	No	along with company name and
	paints with		photographs of the products.
	less VOC and other green cleaning		Photographs of the foot mats.
	products)? (Yes/No)		
	Does the college have a foot mat at all	Yes	
	entrances of the		
	college? (Yes/No)		
	Are Classrooms cleaned on daily basis?	Yes	Narrative of daily cleaning practices.
	(Yes/No)		
	Points: 02
