

Sustainable Investment Policy

Chitkara University has a Sustainable Investment Policy that outlines the university's commitment to procure goods and services in a way that minimizes environmental impact and promotes social responsibility. The policy covers all aspects of procurement, from the initial tendering process to the disposal of goods and services.

Chitkara University's Sustainable Investment Policy

- **Invest in companies that are committed to environmental sustainability** – We are committed to investing in companies that are reducing their environmental impact, investing in renewable energy, and developing sustainable products and services.
- **Invest in companies that respect human rights and labor standards** - We are committed to investing in companies that do not use child labor, that pay fair wages, and that provide safe working conditions.
- **Be transparent about investment practices** - This means publishing a list of the university's investments and the criteria it uses to select them.
- **Use a green investment checklist to assess the environmental impact of companies** - This is a tool that helps the university assess the environmental impact of companies.
- **Require companies to disclose their environmental and social performance** – Wherever possible, we ask companies to provide information about their environmental and social performance.
- **Give preference to companies that are certified by sustainable organizations** – We prefer investing in companies that have been certified by organizations that assess sustainability performance.
- **Monitor investments on a regular basis to ensure that they are aligned with the university's sustainability goals** – We review all investments to ensure that they are still aligned with the university's sustainability goals.
